Performance Highlights

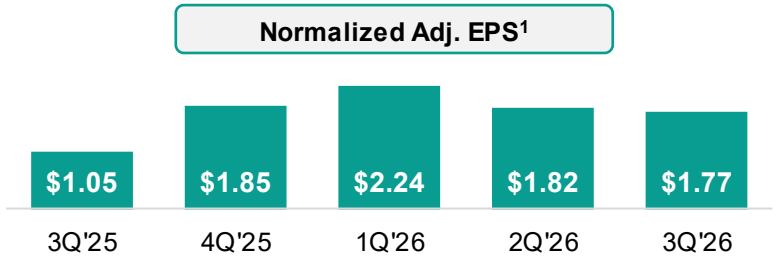

3Q 2026 Key Financials

Adj. NTI[1]	Adj. NTI/day[1]	Normalized Adj. EPS[1]
$704M	$11.0M	**$1.77**

Adj. EBITDA[1]	Adj. EBITDA Margin[1,2]	Debt to LTM Adj. EBITDA[1]
$438M	62%	1.4x

Summary Recent Results

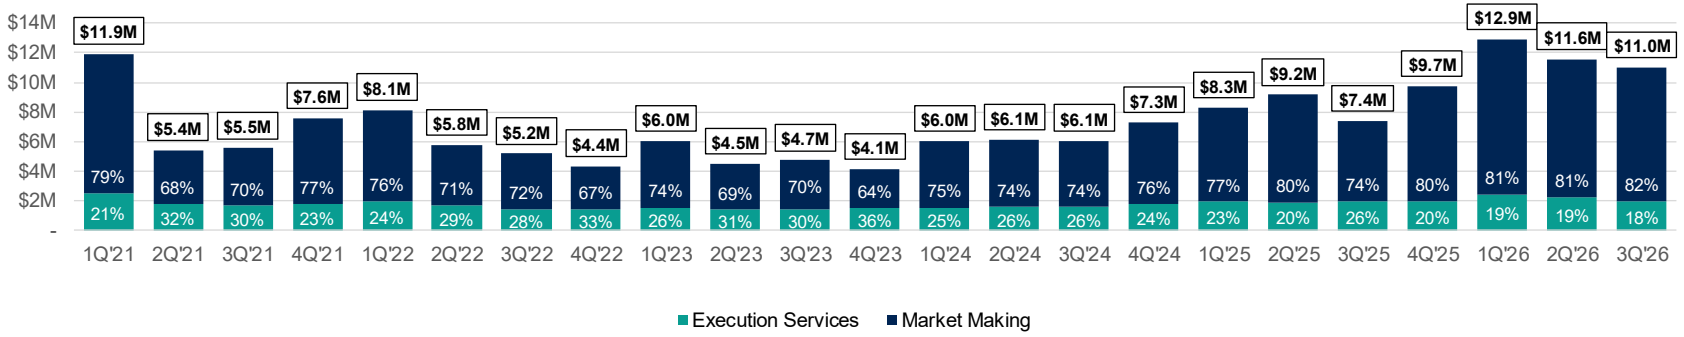

Commentary & Highlights

- Growth of our trading capital[1] base – which has now reached $3.4 billion – has allowed us to capitalize on market opportunities and expand organically across all asset classes.
- Execution Services continued to perform well despite lower addressable market volumes in the quarter, demonstrating the resilience and stability of those product offerings.

Disclaimer

Cautionary Statement Regarding Forward Looking Statements

This presentation may contain “forward-looking statements” made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements regarding Virtu Financial, Inc.’s (“Virtu’s”, the “Company’s” or “our”) business that are not historical facts are forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved. The Company assumes no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, and if the Company does update one or more forward-looking statements, no inference should be drawn that the Company will make additional updates with respect thereto or with respect to other forward-looking statements. Forward-looking statements are based on information available at the time and/or management’s good faith belief with respect to future events, and is subject to risks and uncertainties, some or all of which are not predictable or within Virtu’s control, that could cause actual performance or results to differ materially from those expressed in the statements. Those risks and uncertainties include, without limitation: fluctuations in trading volume and volatilities in the markets in which we operate; the ability of our trading counterparties, clients and various clearing houses to perform their obligations to us; the performance and reliability of our customized trading platform; the risk of material trading losses from our market making activities; swings in valuations in securities or other instruments in which we hold positions; increasing competition and consolidation in our industry; the risk that cash flow from our operations and other available sources of liquidity will not be sufficient to fund our various ongoing obligations, including operating expenses, short term funding requirements, margin requirements, capital expenditures, debt service and dividend payments; regulatory and legal uncertainties and other potential changes associated with our industry, particularly in light of increased attention from media, regulators and lawmakers to market structure and related issues including but not limited to the retail trading environment, wholesale market making and off exchange trading more generally and payment for order flow arrangements; potential adverse results from legal or regulatory proceedings; our ability to remain technologically competitive and to ensure that the technology we utilize is not vulnerable to security risks, hacking and cyber-attacks; risks associated with third party software and technology infrastructure. For a discussion of the risks and uncertainties which could cause actual results to differ from those contained in forward-looking statements, see Virtu’s Securities and Exchange Commission filings, including but not limited to Virtu’s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with the SEC.

GAAP and Non-GAAP Results

This presentation includes or may include certain non-GAAP financial measures, including Adjusted EPS, Normalized Adjusted EPS, Adjusted Net Trading Income, Normalized Adjusted Net Income, Normalized Adjusted Pre-Tax Income, EBITDA, Adjusted EBITDA, EBITDA Margin, Adjusted EBITDA Margin, Trading Capital, Invested Capital, Adjusted Operating Expense and Adjusted Compensation Expense. Non-GAAP financial measures should be considered only as supplemental to, and not as superior to, financial measures prepared in accordance with GAAP. Other companies may use similarly titled non-GAAP financial measures that are calculated differently from the way we calculate such measures. Accordingly, our non-GAAP financial measures may not be comparable to similar measures used by other companies. We caution investors not to place undue reliance on such non-GAAP measures, but instead to consider them with the most directly comparable GAAP measure. Non-GAAP financial measures have limitations as analytical tools, and should not be considered in isolation, or as a substitute for our results as reported under GAAP. A reconciliation of non-GAAP measures to the most directly comparable financial measure prepared in accordance with GAAP is included at the end of this presentation.

End Notes

These notes refer to metrics and/or defined terms presented on:

Slide 2 Performance Highlights

1. This reflects a non-GAAP measure. Please refer to slides at the end of this presentation for reconciliation to the equivalent GAAP measure. Prior period reconciliations available: https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
2. Adj. EBITDA Margin is calculated as Adjusted EBITDA divided by Adjusted Net Trading Income.

Note: # of trading days used in Virtu's daily performance calculations: 63.5, 63, 61, 62, and 64 for 3Q 2025, 4Q 2025, 1Q 2026, 2Q 2026, and 3Q 2026, respectively.

Slide 3 Key Financial Metrics

1. This reflects a non-GAAP measure. Please refer to slides at the end of this presentation for reconciliation to the equivalent GAAP measure. Prior period reconciliations available: https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
2. Adjusted EBITDA Margin is calculated as Adjusted EBITDA divided by Adjusted Net Trading Income.

Note: # of trading days used in Virtu's daily performance calculations: 252, 251, 250, 250.5, 248.5, 187, 63.5, 63, 61, 62, and 64 for FY 2021, FY 2022, FY 2023, FY 2024, FY 2025, YTD 2026, 3Q 2025, 4Q 2025, 1Q 2026, 2Q 2026, and 3Q 2026, respectively.

Slide 4 Returns remain elevated on a growing capital base

1. This reflects a non-GAAP measure. Please refer to slides at the end of this presentation for reconciliation to the equivalent GAAP measure. Prior period reconciliations available: https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
2. For periods pre-ITG acquisition, LTM ANTI includes ITG results adjusted for consistency with Virtu reporting. ANTI is a non-GAAP measure. Please refer to slides at the end of this presentation for reconciliation to the equivalent GAAP measure. Prior period reconciliations available: https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
3. Return on Invested Capital (ROIC) is calculated as LTM ANTI *divided by* LTM Invested Capital. For periods post-ITG acquisition, LTM Invested Capital is calculated as the average of beginning-of-period and end-of-period Invested Capital. For periods pre-ITG acquisition, LTM Invested Capital is calculated as end-of-period Invested Capital. Invested Capital is a non-GAAP measure. Please refer to slides at the end of this presentation for reconciliation to the equivalent GAAP measure. Prior period reconciliations available: https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
   NOTE: ROIC has been calculated as LTM Adjusted EBITDA divided by LTM Invested Capital on previous earnings supplements and other presentations. Please refer to the end notes on those respective presentations for details on previous calculations.

Slide 5 Operating Expenses and Long-Term Debt

1. This reflects a non-GAAP measure. Please refer to slides at the end of this presentation for reconciliation to the equivalent GAAP measure. Prior period reconciliations available: https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
2. Interest Expense includes a floor on SOFR of 0%.
3. 3.5 billion JPY.
4. Blended rate.

**Beginning with 4Q 2024, days on which US equities exchanges close early or are otherwise operating for less than a full trading day are treated as half-days. Trading days during and average daily results pertaining to prior periods have not been restated as the impact of the change is immaterial.*

End Notes

These notes refer to metrics and/or defined terms presented on:

Slide 7 Market Metrics

1. Rule 605 volumes reflect information contained within reports publicly available on Virtu's website: https://www.virtu.com/about/transparency/rule-605-and-606-reporting. Reporting methodology thereof has changed as of August 2026. To maintain consistency with previously reported market centers, the numbers presented represent NITE, NITQ, and VIRT only.

Slide 8 Share Count Roll Forward

Note: Assumes that (1) holders of all vested and unvested non-voting Virtu Financial Units (together with corresponding shares of the Company's Class C Common Stock) have exercised their right to exchange such Virtu Financial Units for shares of Class A Common Stock on a one-for-one basis, (2) holders of all non-voting Virtu Financial Units (together with corresponding shares of the Company's Class D Common Stock) have exercised their right to exchange such Virtu Financial Units for shares of the Company's Class B Common Stock on a one-for-one basis, and subsequently exercised their right to convert the shares of Class B Common Stock into shares of Class A Common Stock on a one-for-one basis. Does not include diluted shares (e.g. options, warrants), and reflects shares outstanding at a prior point in time or projected to be outstanding as of a future point in time, as opposed to a weighted average over a period.

Slide 9 GAAP Balance Sheet

1. This reflects a non-GAAP measure, and it reflects the assets bracketed above ***less*** the liabilities bracketed above. Trading Capital at 12/31/24, 12/31/25, and 9/30/26 also include digital assets with a fair value of $81M, $152M, and $240M, respectively – which are reported in Other Assets. Prior period reconciliations available at https://ir.virtu.com/financials-and-filings/quarterly-results/default.aspx.
2. Comprises cash anticipated to be used in the operations of the business, including cash anticipated to be paid to satisfy tax and compensation liabilities, payments of debt pursuant to debt covenants, as well as dividends and other distributions to equity owners.

Slide 11 Adjusted EBITDA & Normalized Adjusted EPS

1. EBITDA Margin is calculated as EBITDA ***divided by*** Adjusted Net Trading Income.
2. Adj. EBITDA Margin is calculated as Adjusted EBITDA ***divided by*** Adjusted Net Trading Income.

Slide 13 Adjusted Operating Expense Reconciliation

1. Includes severance, share-based compensation, one-time compensation-related COVID-19 expenses, and one-time compensation expenses related to RFQ Hub transaction.
2. Includes connectivity early termination expenses.
3. Includes write-down of assets, reserve for legal matters, and one-time operations & administrative-related COVID-19 expenses (e.g. donations).
